REPORT ON THE REVIEW OF INTERIM CONDENSED FINANCIAL STATEMENTS TO THE BOARD OF DIRECTORS OF ALUMINIUM BAHRAIN B.S.C.

### Introduction

We have reviewed the accompanying interim condensed financial statements of Aluminium Bahrain B.S.C. ('the Company') as at 31 March 2013, comprising of the interim statement of financial position as at 31 March 2013 and the related interim statements of comprehensive income, cash flows and changes in equity for the three month period then ended and explanatory notes. The Company's Board of Directors is responsible for the preparation and presentation of these interim condensed financial statements in accordance with International Accounting Standard 34 "Interim Financial Reporting" ("IAS 34"). Our responsibility is to express a conclusion on these interim condensed financial statements based on our review.

### Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing. Consequently, it does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed financial statements are not prepared, in all material respects, in accordance with IAS 34.

### 1 ACTIVITIES

Aluminium Bahrain B.S.C. ("the Company") was incorporated as a Bahrain Joint Stock Company (closed) in the Kingdom of Bahrain and registered with the Ministry of Industry and Commerce under commercial registration (CR) number 999.

Subsequent to the Initial Public Offering (IPO), the Company became a Bahrain Public Joint Stock Company effective 23 November 2010 and its shares were listed on Bahrain Stock Exchange (now Bahrain Bourse) and Global Depositary Receipts were listed on the London Stock Exchange. The Company has its registered office at 150 Askar Road, Askar 951, Kingdom of Bahrain.

As of 31 March 2013, the majority shareholder of the Company is Bahrain Mumtalakat Holding Company B.S.C. (c) (Mumtalakat), a company wholly owned by the Government of the Kingdom of Bahrain through the Ministry of Finance, which holds 69.38% (31 December 2012: 69.38%) of the Company's share capital.

The Company is engaged in manufacturing aluminium and aluminium related products. The Company owns and operates a primary aluminium smelter and the related infrastructure. The Company also has branch offices in Zurich and Hong Kong.

On 3 September 1990, the Company entered into a Quota Agreement between the Company, the Government of the Kingdom of Bahrain (GB), SABIC Industrial Investments Company (SIIC) and Breton Investments Limited (Breton). The Quota Agreement remains in full force and effect and was not amended with respect to the transfer of GB's shareholding in the Company to Mumtalakat. Consequent to the purchase of shares held by Breton in 2010, Breton ceased to be a shareholder of the Company, thereby revoking its entitlement to rights and obligations under the Quota Agreement, including the right to require the Company to sell the eligible quota of aluminium to Breton at a specified price.

On 25 May 2010, Mumtalakat provided a letter to the Company whereby it irrevocably and unconditionally waived its rights under the Quota Agreement requiring the Company to sell the eligible quota of aluminium to Mumtalakat. Consequently, as a result of this waiver the Company is no longer under an obligation to sell any part of its production to Mumtalakat. The Company is now free to sell 69.38% of its production to third-party customers on commercial terms. Mumtalakat has also acknowledged that it is under an obligation to purchase its quota of aluminium produced by the Company, should the Company decide to sell Mumtalakat's quota in accordance with the Quota Agreement. SIIC has not given a corresponding written waiver to the Company as at the date of approval of these interim condensed financial statements.

The interim condensed financial statements were authorised for issue by the Board of Directors on 7 May 2013.

### 2 SIGNIFICANT ACCOUNTING POLICIES

### **Basis of preparation**

The interim condensed financial statements of the Company for the three month period ended 31 March 2013 have been prepared in accordance with International Accounting Standard 34, "Interim Financial Reporting".

The interim condensed financial statements do not contain all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Company's annual financial statements as at 31 December 2012. In addition, results for the three month period ended 31 March 2013 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2013.

At 31 March 2013

### 2 SIGNIFICANT ACCOUNTING POLICIES (continued)

### New and amended standards and interpretations

The accounting policies adopted in the preparation of the interim condensed financial statements are consistent with those followed in the preparation of the Company's annual financial statements for the year ended 31 December 2012, except for the adoption of new Standards and Interpretation, noted below, which did not have any impact on the accounting policies, financial position or performance of the Company:

### IAS 1 Presentation of Items of Other Comprehensive Income – Amendments to IAS 1

The amendments to IAS 1 introduce a grouping of items presented in other comprehensive income (OCI). Items that could be reclassified (or recycled) to profit or loss at a future point in time (e.g., net gain on hedge of net investment, exchange differences on translation of foreign operations, net movement on cash flow hedges and net loss or gain on available-for-sale financial assets) now have to be presented separately from items that will never be reclassified (e.g., actuarial gains and losses on defined benefit plans and revaluation of land and buildings). The amendment affected presentation only and had no impact on the Company's financial position or performance.

# IFRS 7 Financial Instruments: Disclosures Offsetting Financial Assets and Financial Liabilities Amendments to IFRS 7

The amendment requires an entity to disclose information about rights to set-off financial instruments and related arrangements (e.g., collateral agreements). The disclosures would provide users with information that is useful in evaluating the effect of netting arrangements on an entity's financial position. The new disclosures are required for all recognised financial instruments that are set off in accordance with IAS 32. The disclosures also apply to recognised financial instruments that are subject to an enforceable master netting arrangement or similar agreement, irrespective of whether the financial instruments are set off in accordance with IAS 32. As the Company is not setting off financial instruments in accordance with IAS 32 and does not have relevant offsetting arrangements, the amendment does not have an impact on the Company.

### IFRS 13 Fair Value Measurement

IFRS 13 establishes a single source of guidance under IFRS for all fair value measurements. IFRS 13 does not change when an entity is required to use fair value, but rather provides guidance on how to measure fair value under IFRS when fair value is required or permitted. The application of IFRS 13 has not materially impacted the fair value measurements carried out by the Company.

IFRS 13 also requires specific disclosures on fair values, some of which replace existing disclosure requirements in other standards, including IFRS 7 Financial Instruments: Disclosures. Some of these disclosures are specifically required for financial instruments by IAS 34.16A(j), thereby affecting the interim condensed financial statements for the period. The Company provides these disclosures in note 5.

No separate figure for diluted earnings per share has been presented as the Company has issued no financial instruments which may have a dilutive effect.

### 4 DERIVATIVE FINANCIAL INSTRUMENTS

The Company does not engage in proprietary trading activities in derivatives. However, the Company enters into derivative transactions to hedge economic risks under its risk management guidelines that may not qualify for hedge accounting under IAS 39. Consequently, gains or losses resulting from the remeasurement to fair value of these derivatives are taken to the interim statement of comprehensive income.

The Company has a number of derivative financial instruments comprising interest rate collars, knockout swaps, forward foreign exchange contracts and commodity options. The fair values of the derivative financial instruments at 31 March 2013 were as follows:

		larch 13	31 Decemi 2012	ber

### 5 FINANCIAL INSTRUMENTS

#### Fair values

Financial instruments comprise of financial assets, financial liabilities and derivative financial instruments.

Financial assets consist of bank balances and cash and receivables. Financial liabilities consist of borrowings, short term loans and payables. Derivative financial instruments consist of interest rate collars, knockout swaps, forward exchange contracts and commodity options.

Set out below is an overview of financial instruments, other than bank balances and cash, held by the Company as at 31 March 2013:

	Loans and	Fair value
	receivables	profit or loss
	BD '000	BD '000
Financial assets:		
Trade and other receivables	118,496	-
Financial liabilities: Borrowings Short term loans Accounts payable and accruals Derivative financial instruments	222,927 17,747 116,366	- - - 23,578
	357,040	23,578

### Fair value hierarchy

All financial instruments for which fair value is recognised or disclosed are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1: Quoted market prices in an active market (that are unadjusted) for identical assets or liabilities;

Level 2: Valuation techniques (for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable); and

Level 3: Valuation techniques (for which the lowest level input that is significant to the fair value measurement is unobservable).

As at 31 March 2013, the Company's derivative financial instruments are measured at fair value. These are Level 2 as per the hierarchy above for the three months ended 31 March 2013. The Company does not have financial instruments qualifying for Level 1 or Level 3 classification.

During the three month period ended 31 March 2013 and the three month period ended 31 March 2012, there were no transfers between Level 1 and Level 2 fair value measurements, and no transfers into or out of Level 3 fair value measurements.

At 31 March 2013

### **6 OPERATING SEGMENT INFORMATION**

For management purposes, the Company has a single operating segment which is the ownership and operation of a primary aluminium smelter and related infrastructure. Hence no separate disclosure of profit or loss, assets and liabilities is provided as this disclosure will be identical to the interim statement of financial position and interim statement of comprehensive income of the Company.
