The Group's Board of Directors is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard (IAS) 34 "*Interim Financial Reporting*". Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "*Review of Interim Financial Information Performed by the Independent Auditor of the Entity*". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34.

2 MATERIAL ACCOUNTING POLICIES

Basis of preparation

The interim condensed consolidated financial statements for the six-month period ended 30 June 2025 have been prepared in accordance with International Accounting Standard (IAS) 34, "Interim Financial Reporting".

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual consolidated financial statements, and should be read in conjunction with the Group's annual consolidated financial statements for the year ended 31 December 2024. In addition, results for the six months ended 30 June 2025 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2025.

New amendment in standard adopted by the Group

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2024, except for the adoption of new amendment effective as of 1 January 2025. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

One amendment applies for the first time in 2025, but does not have an impact on the interim condensed consolidated financial statements of the Group.

- *Lack of exchangeability - Amendments to IAS 21 - The amendments to IAS 21 The Effects of Changes in Foreign Exchange Rates specify how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking. The amendments also require disclosure of information that enables users of its financial statements to understand how the currency not being exchangeable into the other currency affects, or is expected to affect, the entity's financial performance, financial position and cash flows.*

Provisional pricing adjustments

Adjustments to sale price occur based on the movements in market prices from the date of sale to the end of the period agreed with the customer. The period can range between 1-2 months. Estimates are made on likely price adjustments using available market rates of underlying commodity price benchmarks. Actual results are determined on the date of price confirmation with the customers.

Seasonality of operations

The Group does not have significant income of seasonal nature.

Contingencies

The Group discloses its contingent liabilities for the pending litigations and claims against the Group based on its judgment and the advice of the legal advisors for the estimated financial outcome. The actual outcome of these litigations and claims can have an effect on the carrying amounts of the liabilities recognised at the balance sheet date. However, based on the best judgment of the Group and the likely outcome of these litigations and claims as at 30 June 2025, there is no need to recognise any liability at the balance sheet date.

4 DERIVATIVE FINANCIAL INSTRUMENTS (continued)

(ii) Interest rate swaps (continued)

The Group has designated this derivative as a cash flow hedging instrument which qualifies for hedge accounting under IFRS 9. Accordingly, the effective portion of the gains or losses resulting from the re-measurement of fair value of the derivative is recognised in the interim consolidated statement of comprehensive income under other comprehensive income.

As of 30 June 2025, the notional amount outstanding was BD 136,497 thousand at a fixed rate of 1.4830% (31 December 2024: BD 144,119 thousand at the same fixed rate).

Realised gains or losses are reclassified from the cash flow hedge reserve to the interim consolidated statement of profit or loss as a reclassification adjustment in the periods during which interest expense on the hedged borrowings is recognised or paid.

(iii) Commodity derivatives

The Group enters into derivative contracts to reduce the price risk on behalf of its customers and a portion of its production. These are initially measured at fair value and do not qualify for hedge accounting. Subsequent to initial recognition, these derivatives are measured at fair value, and the changes therein are recognised in the interim consolidated statement of profit or loss.

11 FAIR VALUE MEASUREMENT (continued)

Fair value of financial instruments

Financial instruments comprise of financial assets, financial liabilities and derivative financial instruments.

Financial assets consist of bank balances and cash, short term deposits and trade and other receivables. Financial liabilities consist of trade and other payables, loans and borrowings and lease liabilities. Derivative financial instruments consist of the interest rate swaps and commodity derivatives.

All financial instruments for which fair value is recognised or disclosed are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 : Quoted market prices in an active market (that are unadjusted) for identical assets or liabilities;

Level 2 : Valuation techniques (for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable); and

Level 3 : Valuation techniques (for which the lowest level input that is significant to the fair value measurement is unobservable).

As at 30 June 2025 and as at 31 December 2024, the Group's derivative financial instruments, related to interest rate swaps and commodity derivatives and trade receivables (subject to provisional pricing) are measured at fair value and categorised as Level 2 as per the hierarchy. The Group does not have any financial instruments categorised as Level 1 or Level 3.

The fair values of other financial instruments are not materially different from their carrying values as of the reporting date largely due to the short term maturities and floating rate of borrowings which are similar to observed market rate of the group's liabilities.

During the period / year ended 30 June 2025 and 31 December 2024, there were no transfers between Level 1 and Level 2 fair value measurements, and no transfers into or out of Level 3 fair value measurements.

12 DOMESTIC MINIMUM TOP-UP TAX

The Global Anti-Base Erosion Pillar Two Model Rules ("GloBE rules") established by the Organization for Economic Cooperation and Development ("OECD") apply to multinational enterprise ("MNE") groups with total annual consolidated revenue exceeding EUR 750 million in at least two of the four preceding fiscal years.

In line with the requirements of GloBE rules, the Kingdom of Bahrain has issued and enacted Decree Law No. (11) of 2024 ("Bahrain DMTT law") on 1 September 2024 introducing a domestic minimum top-up tax ("DMTT") of up to 15% on the taxable income of the Bahrain resident entities within the Group for fiscal years beginning on or after 1 January 2025.

The Company is domiciled and operates in the Kingdom of Bahrain and has assessed that it falls under the scope of the Bahrain DMTT law effective 1 January 2025. Under similar regulations enacted in other countries (based on GloBE rules), the Group's subsidiaries may also be subject to a top-up tax in 2025 in relation to its operations in United States and Guernsey. Based on the Group's assessment of applicability of the Bahrain DMTT law and GloBE rules, while it is within the scope of the DMTT law and GloBE rules, the tax liability for the fiscal year 2025 is expected to be nil, as the Group expects to meet the following conditions for a temporary relief - Exclusion for Initial Phase of International Activity:

- The Group shall be present in less than 6 jurisdictions.
- The net book value of tangible assets (outside of Bahrain) shall not exceed EUR 50 million.
- The Company ownership shall not be held in any jurisdiction applying OECD Income Inclusion Rule.
