REPORT ON THE REVIEW OF INTERIM CONDENSED FINANCIAL STATEMENTS TO THE BOARD OF DIRECTORS OF ALUMINIUM BAHRAIN B.S.C.

Introduction

We have reviewed the accompanying interim condensed financial statements of Aluminium Bahrain B.S.C. ('the Company') as at 30 September 2011, comprising of the interim statement of financial position as at 30 September 2011 and the related interim statements of comprehensive income, cash flows and changes in equity for the nine month period then ended and explanatory notes. The Company's Board of Directors is responsible for the preparation and presentation of these interim condensed financial statements in accordance with International Accounting Standard 34 "Interim Financial Reporting" ("IAS 34"). Our responsibility is to express a conclusion on these interim condensed financial statements based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing. Consequently, it does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed financial statements are not prepared, in all material respects, in accordance with IAS 34.

1 ACTIVITIES

Aluminium Bahrain B.S.C. ("the Company") was incorporated as a Bahrain Joint Stock Company (closed) in the Kingdom of Bahrain and registered with the Ministry of Industry and Commerce under commercial registration (CR) number 999.

Subsequent to the Initial Public Offering (IPO), the Company became a Bahrain Public Joint Stock Company effective 23 November 2010 and its shares were listed on the Bahrain Bourse (previously the Bahrain Stock Exchange) and Global Depositary Receipts were listed on the London Stock Exchange. The Company has its registered office at 150 Askar Road, Askar 951, Kingdom of Bahrain.

As of 30 September 2011, the majority shareholder of the Company was Bahrain Mumtalakat Holding Company B.S.C. (c) (Mumtalakat), a company wholly owned by the Government of the Kingdom of Bahrain through the Ministry of Finance, which holds 69.38% of the Company's share capital.

The Company is engaged in manufacturing aluminium and aluminium related products. The Company owns and operates a primary aluminium smelter and the related infrastructure. The Company also has a branch office in Zurich, Switzerland.

On 3 September 1990, the Company entered into a Quota Agreement between the Company, the Government of the Kingdom of Bahrain (GB), SABIC Industrial Investments Company (SIIC) and Breton Investments Limited (Breton). The Quota Agreement remains in full force and effect and was not amended with respect to the transfer of GB's shareholding in the Company to Mumtalakat. Consequent to the purchase of shares held by Breton in 2010, Breton ceased to be a shareholder of the Company, thereby revoking its entitlement to rights and obligations under the Quota Agreement, including the right to require the Company to sell the eligible quota of aluminium to Breton at a specified price.

On 25 May 2010, Mumtalakat provided a letter to the Company whereby it irrevocably and unconditionally waived its rights under the Quota Agreement requiring the Company to sell the eligible quota of aluminium to Mumtalakat. Consequently, as a result of this waiver the Company is no longer under an obligation to sell any part of its production to Mumtalakat. The Company is now free to sell 69.38% of its production to third-party customers on commercial terms. Mumtalakat has also acknowledged that it is under an obligation to purchase its quota of aluminium produced by the Company, should the Company decide to sell Mumtalakat's quota in accordance with the Quota Agreement. SIIC has not given a corresponding written waiver to the Company as at the date of approval of these interim condensed financial statements.

2 SIGNIFICANT ACCOUNTING POLICIES

Basis of preparation

The interim condensed financial statements of the Company for the nine months ended 30 September 2011 has been prepared in accordance with International Accounting Standard 34, "Interim Financial Reporting".

The interim condensed financial statements do not contain all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Company's annual financial statements as at 31 December 2010. In addition, results for the nine month period ended 30 September 2011 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2011.

At 30 September 2011

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

New standards, interpretation and amendments thereof, adopted by the Company

The accounting policies adopted in the preparation of the interim condensed financial statements are consistent with those followed in the preparation of the Company's annual financial statements for the year ended 31 December 2010, except for the adoption of new standards and interpretations as of 1 January 2011, noted below:

IAS 24 Related Party Disclosures (Amendment)

The IASB has issued an amendment to IAS 24 that clarifies the definitions of a related party. The new definitions emphasise a symmetrical view of related party relationships as well as clarifying in which circumstances persons and key management personnel affect related party relationships of an entity. Secondly, the amendment introduces an exemption from the general related party disclosure requirements for transactions with a government and entities that are controlled, jointly controlled or significantly influenced by the same government as the reporting entity. The adoption of the amendment did not have any impact on the financial position or performance of the Company.

IAS 32 Financial Instruments: Presentation (Amendment)

The amendment alters the definition of a financial liability in IAS 32 to enable entities to classify rights issues and certain options or warrants as equity instruments. The amendment is applicable if the rights are given pro rata to all of the existing owners of the same class of an entity's non-derivative equity instruments, to acquire a fixed number of the entity's own equity instruments for a fixed amount in any currency. The amendment has had no effect on the financial position or performance of the Company.

Improvements to IFRSs (issued May 2010)

In May 2010, the IASB issued its third omnibus of amendments to its standards, primarily with a view to removing inconsistencies and clarifying wording. There are separate transitional provisions for each standard. The adoption of the following amendments resulted in changes to accounting policies, but did not have any impact on the financial position or performance of the Company.

- IFRS 3 Business Combinations: The measurement options available for non-controlling interest (NCI) have been amended. Only components of NCI that constitute a present ownership interest that entitles their holder to a proportionate share of the entity's net assets in the event of liquidation shall be measured at either fair value or at the present ownership instruments' proportionate share of the acquiree's identifiable net assets. All other components are to be measured at their acquisition date fair value.
- IFRS 7 Financial Instruments Disclosures: The amendment was intended to simplify the disclosures provided by reducing the volume of disclosures around collateral held and improving disclosures by requiring qualitative information to put the quantitative information in context.
- IAS 1 Presentation of Financial Statements: The amendment clarifies that an option to present an
 analysis of each component of other comprehensive income may be included either in the interim
 statement of changes in equity or in the notes to the interim condensed financial statements.
- IAS 34 Interim Financial Statements: The amendment requires additional disclosures for fair values and changes in classification of financial assets, as well as changes to contingent assets and liabilities in interim condensed financial statements.

At 30 September 2011

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

Improvements to IFRSs (issued May 2010) [continued]

Other amendments resulting from improvements to IFRSs to the following standards did not have any impact on the accounting policies, financial position or performance of the Company:

- IFRS 3 Business Combinations Clarification that contingent consideration arising from business combinations prior to adoption of IFRS 3 (as revised in 2008) are accounted for in accordance with IFRS 3 (2005)
- IFRS 3 Business Combinations Unreplaced and voluntarily replaced share-based payment awards and their accounting treatment within a business combination
- IAS 27 Consolidated and Separate Financial Statements applying the IAS 27 (as revised in 2008) transition requirements to consequentially amended standards
- IFRIC 13 Customer Loyalty Programmes in determining the fair value of award credits, an entity shall consider discounts and incentives that would otherwise be offered to customers not participating in the loyalty programme.

The Company has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

3 DERIVATIVE FINANCIAL INSTRUMENTS

The Company does not engage in proprietary trading activities in derivatives. However, the Company enters into derivative transactions to hedge economic risks under its risk management guidelines that may not qualify for hedge accounting under IAS 39. Consequently, gains or losses resulting from the remeasurement to fair value of these derivatives are taken to the interim statement of comprehensive income.

The Company has a number of derivative financial instruments comprising interest rate collars, knockout swaps, forward foreign exchange contracts and commodity options. The fair values of the derivative financial instruments at 30 September 2011 are as follows:
